INTRODUCTION

This bulletin includes a number of tables giving 1966 Census of Agriculture data by county or census division for **commercial farms**. Similar information for all census-farms and for **all** provinces is included in Volumes III, IV and V of the Volume Series. The Volume Series also includes information for commercial farms on a provincial basis in Tables 1, 30 and 36. Table 1 was released as Bulletin A-206 (Catalogue No. 96-626) in the Advance Series.

An explanation of the various items and terms included in the tables of this report is to be found in the Introduction contained in each report of the Volume Series. An analysis of the sample check on the quality of the Census of Agriculture is also included in the Volume Series.

Definition of a commercial farm

For the 1966 Census, a commercial farm was defined as a census-farm with sales of agricultural products during the 12-month period prior to the census date, June 1, 1966, of \$2,500 or more ("excluding institutional farms, etc."). In 1961, the minimum agricultural sales requirement for a commercial farm was \$1,200. In this publication, however, the 1966 definition is used throughout, therefore, the number of commercial farms reported for 1961 will be less than that reported in the 1961 Census publications.

Definition of a census-farm

A census-farm is defined as an agricultural holding of one acre or more with sales of agricultural products during the twelve months prior to the census date, June 1, 1966, of \$50 or more.

Le présent bulletin contient un certain nombre de tableaux qui donnent, par comté ou division de recensement, les chiffres du recensement de l'agriculture de 1966 pour les **fermes commerciales**. Des renseignements semblables sur toutes les fermes de recensement, et pour **toutes** les provinces, sont contenus dans les volumes III, IV et V de la Série des volumes. La Série des volumes contient aussi des renseignements, par province, sur les fermes commerciales, aux tableaux 1, 30 et 36. Le tableau 1 a été publié dans la Série anticipée comme Bulletin A-206 (numéro de catalogue 96-626).

On trouvera dans l'Introduction de chacun des rapports de la Série des volumes une explication des divers articles et termes employés dans les tableaux du présent rapport. La Série des volumes contient aussi une analyse du contrôle fragmentaire de la qualité du recensement de l'agriculture.

Définition d'une ferme commerciale

Au recensement de 1966, une ferme commerciale est une ferme de recensement avec des ventes de produits agricoles de \$2,500 ou plus au cours des 12 mois précédant la date du recensement, le 1er juin 1966 (à l'exclusion des "fermes d'institution, etc."). En 1961, l'exigence minimum de ventes agricoles était de \$1,200. Dans le présent rapport, cependant, la définition de 1966 a été utilisée; alors le nombre de fermes commerciales publié pour 1961 sera inférieur à celui publié dans les publications du recensement de 1961.

Définition d'une ferme de recensement

Une ferme de recensement se définit comme une exploitation agricole d'une acre ou plus avec ventes de produits agricoles de \$50 ou plus au cours des douze mois précédant le 1er juin 1966.

TABLE 9. Commercial farms - value of agricultural products sold, 1965,(1) by county

Note: The figures reported in this table were collected primarily for purposes of farm classification but are being published because of their usefulness for studies at the county or census division level. They differ from the cash income figures published by the Agriculture Division, DBS, and the user should exercise caution when using them. See "Introduction".

An X indicates that figures are withheld to avoid disclosing individual operations but these are included in the total.

(2) On buildings and land operated by the owner.

TABLEAU 9. Fermes commerciales - valeur des produits agricoles vendus, 1965(1), par comté

Nota: Les chiffres de ce tableau ont été réunis surtout pour les besoins du classement des fermes mais ils sont publiés en raison de leur utilité dans les études à l'échelon du comté ou de la division de recensement. Ils diffèrent de ceux du revenu monétaire publiés par la Division de l'agriculture du B.F.S. et l'utilisateur ne devra les utiliser qu'avec réserve. Voir l'"Introduction".

Un X indique que les chiffres sont retenus afin de ne pas divulguer les opérations particulières, mais ils sont compris dans les totaux.
